

Fall 2017

empirejs.org

Volume V

JavaScript empowers the Web.

In 2012, EmpireJS was created and soon after in 2015, EmpireNode, to build the JavaScript future we wanted to see— bleeding edge technologies, an inclusive community, and a force to be reckoned with amongst the world's software ecosystems.

The NYC JavaScript community is booming. We've held 8 conferences, laughed with and educated over 3000 attendees, and we're proud to support the community by featuring the world's best JavaScripters from NYC and around the world. Developers have spent over 9,000 hours watching our talks online, free for the benefit of the community. EmpireConf is run entirely by volunteers and is backed by our 501c3 non-profit umbrella, GatherScript. Every sponsor dollar goes into making this an unforgettable event for our attendees, speakers, sponsors, and community at large.

Join us for 2017— it will be our most exciting year yet!

How sponsorships work

Empire Conf is an event that covers 2 1/2 days of conference:

- Opening evening design/css/art and welcome(new!)
- EmpireJS(1-day event in its 5th year)
- EmpireNode(1-day event in its 3rd year)

As a sponsor you can choose to sponsor a tier or any one of the days, with the option of sponsoring the entire event through our Platinum selection. This year, we are also offering a few new opportunities that are first-come, first-serve such as workshops as part of our single-track schedule. We are happy to negotiate pricing for sponsors who would like to choose multiple items.

All sponsorships are explicit with the number of tickets that are included in each package. Lodging is not included. Sponsors are able to access a reserved, discounted tier of tickets if more are needed.

Sponsorship Levels
